MARTYNA NIEZGODA

ABOUT ME

Hello! I'm a surveyor by profession but a few months ago I decided to change my job and started learning manual software testing. I have knowledge in the field of ISTQB - Basic Level and I would like to obtain a Certificate in near future.

My professional experience in geodesy allowed me to improve such features as precise, patience and cooperation with colleagues. In addition, I'm willing to learn and develop new skills.

Before I decided to manual software testing I had got interested in programming. I created some simple projects that I could use in creating test cases and bug reports.

CERTIFICATES AND PROJECTS

Software tester - comprehensive training
- participation in a 4-day training mainly on ISTQB, consisting of a theoretical, lecture and practical part in the form of workshops

Introduction to API testing in Postman
- learning the theory of API testing, working in Postman with various API documentations, using Snippets in created tests

Databases, SQL language for testers
- working in PostgreSQL, creating databases and tables, exercises using e.g. SELECT, UPDATE, INSERT INTO, DELETE, INNER JOIN

QA Marathon GoIT
- learning to work with the specification, writing test cases in TestRail and creating bug reports in Jira

Basics of Manual Software Testing
- creating test cases in qTest and example bug reports in Jira for my web application "Currency - calculator"

Practical Software Testing Course
- learning the theory of testing, creating test cases in TestLink and sample bug reports in Jira for my web application "To-Do-List"

Postman basics - REST API Testing
- creating collections, using GET, POST, PUT, DELETE methods, creating variables and working with a real API based on Trello

Git Course for Beginners
- uploading changes from the local repository to GitHub

EXPERIENCE WORK

- **March 2023 - Present**

Participation in an internship project organized by Quality Island concerning testing software.

- **February 2020 - November 2022**

Surveyor - GEODESY Przedsiębiorstwo Geodezyjno Kartograficzne
Preparing geodetic reports and maps and ensuring their quality. Teamwork in complex projects.

- **February 2019 - November 2019**

Surveyor - Pracownia Geodezyjno - Projektowa GEORAD
Preparing geodetic reports and ensuring their quality. Communicating with office staff and clients.

EDUCATION

- **2020 - 2022 University of Maria Curie - Skłodowska in Lublin**
  Public Administration
- **2014 - 2018 University of Life Sciences in Lublin**
  Geodesy and Cartography
